EDUCATION

McMaster University <i>Bachelor of Engineering (B.Eng.), Computer Engineering</i> GPA: 10.4/12.0 Relevant Coursework: Programming, Engineering Design, Circuits & Electronics, Engineering Mathematics, Mechanics, Electricity & Magnetism	Hamilton, ON <i>Expected Graduation: Apr. 2029</i>
---	--

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, TypeScript, HTML/CSS
Hardware & Systems: Embedded systems, circuit testing, RF test equipment, GPS, Iridium satellite communications, voltage measurement
Software & Tools: React, Tailwind CSS, Vite, Git, GitHub, VS Code, terminal/CLI, Microsoft Excel, Vercel
Engineering: Data analysis, hardware validation, technical reporting, CAD, prototyping, experimental testing

ENGINEERING EXPERIENCE

Navcast Inc. <i>RF & Embedded Systems Engineering Intern</i>	Mississauga, ON <i>May 2026 – Aug. 2026</i>
- Tested and analyzed 300+ Alon and SkyMate M1600 embedded communication units, validating GPS, Iridium, SOS and device operating modes. - Performed hardware and system-level validation using voltage measurements, RF test equipment and terminal/CLI commands to investigate irregular results. - Analyzed production-test data in Excel, calculating performance metrics and comparing trends across large hardware batches. - Produced 5+ engineering test reports with procedures, calculations and data visualizations to support engineering review. - Conducted extended outdoor GPS/Iridium testing and supported troubleshooting and validation of embedded wireless systems.	

SELECTED ENGINEERING & SOFTWARE PROJECTS

Automated Warehouse Robotic Arm <i>Python CAD Robotics Prototyping</i>	McMaster Engineering <i>Jan. 2026 – Apr. 2026</i>
- Collaborated in a 4-person team to design and prototype an automated warehouse retrieval system integrating mechanical design and software. - Developed Python barcode logic mapping item IDs to storage coordinates, directing the robotic arm to the correct location when scanned. - Contributed to CAD design and iterative arm prototyping while integrating software behaviour with the physical mechanism.	
InternBase — Internship Application Tracker <i>React TypeScript Vite Tailwind CSS</i>	Personal Project <i>Aug. 2026</i>
- Built and deployed a responsive internship tracker with application status, interviews, documents, search/filtering, local persistence and light/dark themes. Live Demo Developed reusable React/TypeScript components, managed application state and deployed through GitHub and Vercel.	
GradeGenius — GPA Calculator <i>JavaScript HTML CSS</i>	Personal Project <i>Jan. 2026 – Aug. 2026</i>
- Developed and deployed a responsive GPA calculator supporting both 4.0 and McMaster 12.0 grading scales. Live Demo Managed source control with Git/GitHub and production deployment through Vercel.	
Personal Engineering Portfolio <i>React TypeScript Tailwind CSS Vite</i>	Personal Project <i>Jul. 2026 – Present</i>
Designed and deployed a React portfolio showcasing engineering experience and technical projects with version-controlled deployment.	

ADDITIONAL EXPERIENCE & LEADERSHIP

YK Galaxy Soccer Club <i>Player Coach Physics Club Leader</i>	Yellowknife, NWT <i>2018 – 2023</i>
Led team training and match strategy as a player coach, supporting player development and on-field communication.	
Boston Pizza <i>Host</i>	Yellowknife, NWT <i>2021 – 2022</i>
Worked in a fast-paced, high-volume environment requiring accuracy, communication, multitasking and problem solving.	

ACCOMPLISHMENTS

- ACE McMaster** — First- and Second-Year Representative; connect students with academic, research and professional-development opportunities.
- Garth Webb Secondary School** — 97.5% academic average; Honour Roll throughout high school; Engineering Club member.
- DECA Provincial Competitor** — Advanced through competitive case analysis, strengthening presentation, problem solving and decision-making under pressure.
- YK Galaxy Soccer Club** — Competed at the 2023 Canada Soccer Club Nationals, representing the club at the national level.
- Team NWT Soccer** — Selected for the 2022 Canada Summer Games, competing against provincial and territorial teams nationally.
